Letter of Commendation

Dear Vladimir Vasilevich!

We submit you a letter of commendation on work of your Company on Vankor oil field construction.

From 2009 until present Insist Avtomatika LLC has been performing work on development and implementation of automated control and safety system (ACSS) of the facilities of the first start-up stage, the Vankor field (Vankorneft CJSC, Rosneft Oil Company). The Company manufactured and supplied more than 150 control cabinets on a tight timetable. Specialists of the Company developed application software (ASW) and commissioned the system at the facility. In the process of work managers and specialists of the Company demonstrated ability to timely tackle all emerging organizational and technical problems including those on integration of systems supplied with process equipment into a single control system.

In the process of work Insist Avtomatika LLC showed itself as a reliable partner having responsible and high-qualified specialists and managers able to perform large volumes of work well and within the time limit under harsh climate conditions.

The work of specialists of Insist Avtomatika LLC shall be assessed positively.

Acting Chief Engineer
