*Letter of commendation devoted to the work of specialists*

Dear Vladimir Vasilevich!

We express gratitude for the work of Insist Avtomatika specialists on the site of central oil gathering plant of the Vankor field during active phase of commissioning of complex fire-fighting automatics system.

During the works specialists showed high level of professional knowledge and skills, efficiency and focus on best results. We think that the effective system of interaction between departments of Insist Avtomatika and the Customer allows quickly resolving issues arising during implementation of design solutions.

We ask you to make special mention and award specialists participating in implementation of design solutions of complex fire-fighting automatics system of the site of central oil gathering plant of the Vankor field.

Acting first deputy of production  
director general – chief engineer
