

LETTER OF COMMENDATION TO WORK

performed by Industrial Automation Systems LLC
(Insist Avtomatika LLC, Omsk city)

During 2002-2008 Insist Avtomatika LLC (Omsk city) performed the following work for oil heating equipment at facilities of Gazprom Neft-Khantos LLC:

#	Equipment	Quantity	Period
1.	Oil Heaters PTB-10A	2	2002-2003
Performed work: <ul style="list-style-type: none">- Complex project for reconstruction of oil heating system and modernization of oil heaters PTB-10A (with leading in Russian Federation oil heaters developer Saratovsky research and development centre of Neftemash JSC (Syzran city)).- As a result complex "Oil Heater-Automation System" corresponds to the current safety requirements, equipment with pneumatic drive was replaced with equipment with electric drive, oil heaters can operate as a part of APCS of facility.- When developing design commentary of inspectors from Federal Service of Environmental, Technological and Nuclear Supervision concerning operating oil heaters and of specialists from exploiting services were considered.- Equipment was manufactured, supplied, and commissioned, operating personnel was trained.- Warranty maintenance of oil heaters automaton systems was performed, post-warranty maintenance of oil heaters automation systems is being performed, exploiting services specialists provide consultations.			
#	Equipment	Quantity	Period
2.	Oil Heaters PP-1,6 Oil Heaters PTB-5-40E Oil Heaters PTB-10AE	3 3 4	2004-2008
Performed work: <ul style="list-style-type: none">- Manufacturing of equipment for automation system of direct oil heaters ISA-PPN-DSKM and automation system of line oil heaters ISA-PP-DSKM considering the requirements of Gazprom Neft-Khantos LLC was performed.- Supplied equipment was commissioned, operating personnel was trained.- Warranty maintenance of oil heaters automaton systems was performed, post-warranty maintenance of oil heaters automation systems is being performed, exploiting services specialists provide consultations.			

Automation system of direct oil heaters ISA-PPN-DSKM and automation system of line oil heaters ISA-PP-DSKM are equipped with modern hardware and software of leading world manufacturers.

Commissioning is performed by qualified Insist Avtomatika personnel at high professional level. The personnel was trained at training centers of firms manufacturing automation equipment and obtains a great practical experience in implementation of this equipment.

Insist Avtomatika regularly provides warranty and post-warranty maintenance of automation systems and consultancy for specialists of exploiting services of Gazprom Neft-Khantos LLC. Quick reaction of Insist Avtomatika service departments for our requests shall be mentioned specially.

Automation system for direct oil heaters ISA-PPN-DSKM with Siemens controllers developed by Insist Avtomatika considering requirements of leading in Russian Federation oil heaters

developer Saratovsky research and development centre of Neftemash JSC (Syzran city) is a standard system for oil heaters automation at Gazprom Neft-Khantos LLC facilities.

Quick reaction to the requirements of Gazprom Neft-Khantos specialists allows Insist Avtomatika to perform a full complex of work on development and implementation of APCS: design, manufacturing, supply, commissioning, warranty and post-warranty maintenance of process control systems.

Insist Avtomatika has been experienced in performing work at process oil production and treatment facilities of Gazprom Neft-Khantos LLC. Gazprom Neft-Khantos LLC is satisfied with the quality of supplied equipment, performed work and level of service provided by Insist Avtomatika.
